Press Release

Progressive Integrations, Inc., brings the 21st Century to Non-Profits

Professional level IT care offered to non-profits at reduced pricing.

Johns Island, September 08, 2010: Progressive Integrations, Inc., today announced non-profit pricing of its Proactive Care Services.

IT Costs have not gone down in the recent economy, but that does not mean the demand has.

Because Progressive Integrations, Inc., is known for giving back to the community (earlier this year they awarded technology scholarships to a local student), they decided to take it to another level and bring professional level IT service to an entity that normally cannot afford to keep up with technology especially in the recent economy.

Progressive Integrations, Inc., introduces, NP Proactive Care! What is Proactive Care? Proactive Care is;

- Instantly cuts non-profit IT support costs by 27% to as much as 43% while simultaneously improving the speed, performance and reliability of your computer systems.
- Dramatically reduce risk of experiencing a very expensive, highly disruptive network outage, downtime or disaster.
- Gives complete peace of mind that your computer network is constantly being watched over, protecting you from viruses, hackers, data loss or other data-erasing disasters.
- Obviously, saving money is important to every organization and we can certainly deliver that to you. But in addition to the cost savings, you will:

For Release 9 a.m. EDT, September 09, 2010

- Eliminate the risk of sudden and unexpected repairs and recovery costs and replace it with a low, predictable monthly rate. Our network monitoring and maintenance prevents network disasters from ever happening in the first place. As a matter of fact, we guarantee it.
- Instant technical support so you don't have to wait around to get help. 93% of all tech support calls are answered live; the other 7% get a call back within 15 minutes or less. Plus, our technicians will be able to support and troubleshoot most network problems right from our offices – the INSTANT you call - so you no longer have to wait around with your computer down for a tech to show up!
- Receive ALL of the benefits of an in-house IT department WITHOUT all of the costs. As a Proactive Care customer, you'll have access to a highly experienced team of IT professionals, at your beck and call whenever you need them.
- Sleep easier knowing the “gremlins at the gate” are being watched. Cyber criminals never sleep! But thanks to our 24/7/365 monitoring and ongoing maintenance, you'll have one less thing to worry about.
- Safeguard your data. The data on the hard disk is always more important than the hardware that houses it. If you rely on your computer systems for daily operations, it's time to get serious about protecting your critical, irreplaceable electronic information.
- Eliminate annoying spam, pop-ups, and spyware from taking over your computer and your network. Not only are these intruders annoying, but they can introduce viruses and jeopardize the security of your network.

Call today for our \$99 audit and 30-day free trial of Proactive Care! Progressive Integrations, Inc., 3424 Maybank Highway, Johns Island, SC 29455, 843.559.2958 or visit our website at: <http://progressiveintegrations.com>.
